Proposal # Q2-22-002  
March 3, 2022

Attention: Chris Stevenson

Reference: Town of Ulysses Alarming and Remote Access Modifications

Chris,  
**AquaLogics Systems, Inc.** is pleased to offer the following proposal for your consideration.

The following proposal is for programming, field services and hardware to add a Stridelinx VPN with alarming to the Town Hall control panel. The Stridelinx will be configured to send out all of the alarms in the system to operators through emails and/or smartphones apps with push notifications. The Stridelinx will also provide a way for operators to securely remotely access the system through smart phones, tablets, or computers with encryption and two factor authentication capability. It will use the existing internet connection at the Town Hall and does not require any recurring subscriptions.

AquaLogics will modify the town hall panel as needed to install the Stridelinx and an additional 4 port N-Tron Ethernet switch which is required to share the internet connection between the Stridelinx and the DCB that communicates with the other sites.

All labor is included for programming and configuration, installation, training and assisting with setting up phones and other devices on site.

The following hardware is also included in the price:  
Qty.1 – Automation Direct Stridelinx SE-SL3011 VPN tunnel with the alarm notification option.  
Qty.1 – N-Tron 104TX 4 port unmanaged Ethernet Switch.  
Qty. 1 Lot - Misc. fuses and wiring.

**Pricing**

**Total Net Pricing for Upgrades.....\$2644**

Taxes

Sales or Use Taxes are not included

Delivery:

3 to 6 weeks, after receipt of order

Terms:

Net 30 days
