I would agree with you Tom and I hope we can give a better advance notice in the future.

Dear Liz, Carissa, and others,

I will be attending the 3/15 sidewalk meeting form 1-2:30pm at the village office. I'm not sure why being given two business days advance notice of this meeting is seen as suitable, because it is not. I now have to cancel one patient in order to attend, and if I were to participate in the 5-7pm portion of events, I would have to cancel two more. This is unreasonable.

I expect that subsequent meetings will be scheduled with at least 2 weeks notice. Less than that makes it appear like an attendance/participation deterrent tactic.

Thank you for your attention to this.
