water use restriction for Water District 3 and 4 (Jacksonville and Dubois Rd.)

Elizabeth Thomas <supervisor@ulysses.ny.us>

Aug 2, 2016 5:29 PM

Posted in group: **town-of-Ulysses**

This message is for Town of Ulysses Water District 3 and 4 users only (essentially those living in Jacksonville and vicinity who are on municipal water).

Bolton Point notified me today that they have issued a voluntary advisory for municipal water users to conserve water. Municipal water in the vicinity of Jacksonville and at the end of Dubois Road are supplied by Bolton Point. This advisory also covers water customers in the City of Ithaca, and Cornell University.

The Village of Trumansburg has its own water supply and is not restricting water supply. More information is in the Tompkins County Health Department's press release: <http://www.tompkinscountyny.gov/health/water-conservation-urged-2016-07-29>

Hoping for more rain,
-Liz
